SECOND CYCLE NAAC ACCREDITATION 2023

CRITERION 2

TEACHING- LEARNING AND EVALUATION

2.3.1. Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences using ICT tools

Submitted to

THE NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL

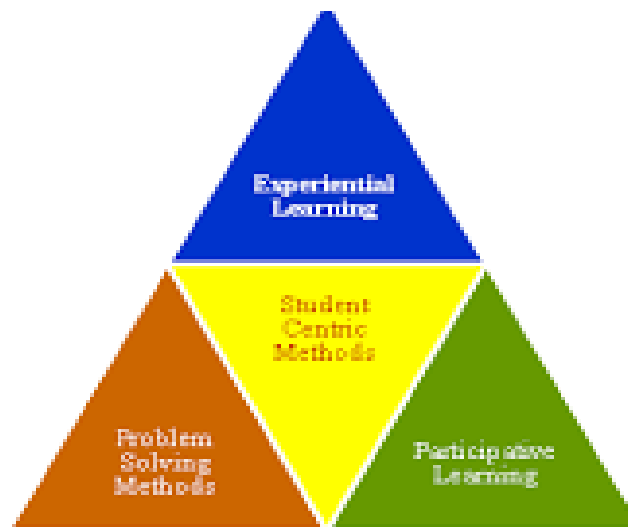

Student Centric Methods, such as experimental learning, participating learning and problem-solving methodologies are used for enhancing learning experiences using ICT tools.

Sree Narayana College, Chathannur has adopted student centric methods such as experiential and participative learning and problem-solving methodologies for enhancing learning experiences where the learner plays the pivotal role, and the teacher facilitates proper guidance in learning process. Documentary evidence are provided for some of the methodologies employed for student centric teaching and learning, grouped under the following headings.

No.	Particulars	Page No.
1	Seminars& Webinars	4
2	Workshops	12
3	ICT used by Faculties	18
4	Software used by Faculties	35
5	Internships	38
6	Student Seminar	40
7	Group Discussion	42

EXPERIENTIAL LEARNING, PARTICIPATIVE LEARNING AND PROBLEM-SOLVING METHODOLOGIES

1. Seminars and Webinars

Sree Narayana College, Chathannur is committed to provide quality education to the students.. Seminars and webinars are conducted on regular basis to fill up the voids in the traditional education system.

Webinars by Eminent Personalities

Lectures by eminent personalities from industry and academy are provided to supplement the regular teaching process. Interactions with the experts enriching our student's knowledge about the industry needs, latest technical updates and avenues for higher studies etc.

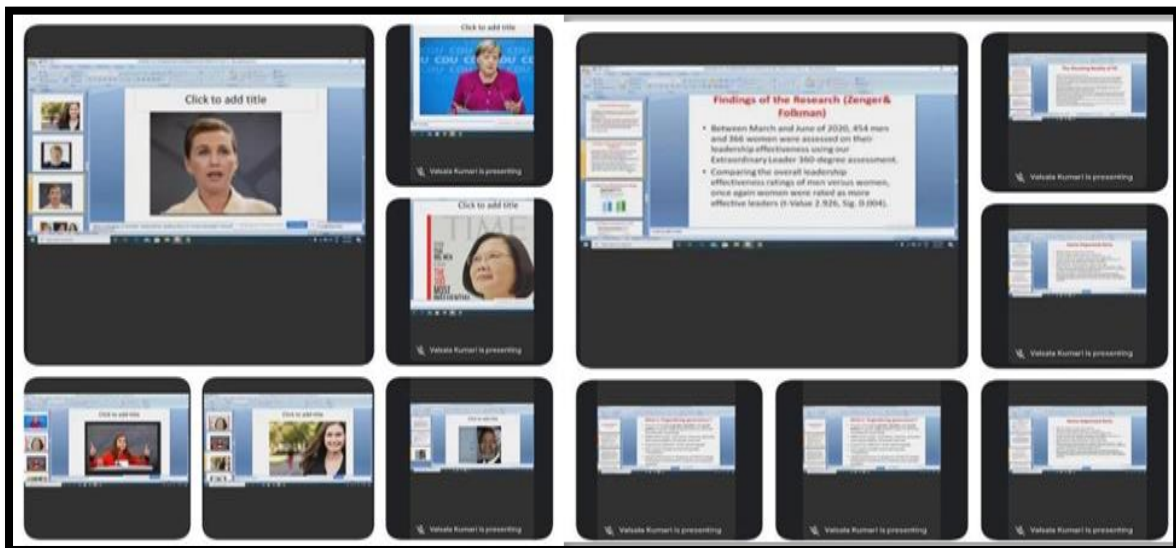

Glimpses of Webinars

Webinar on “Entrepreneurship and Ethics: Reputation as a differentiator”

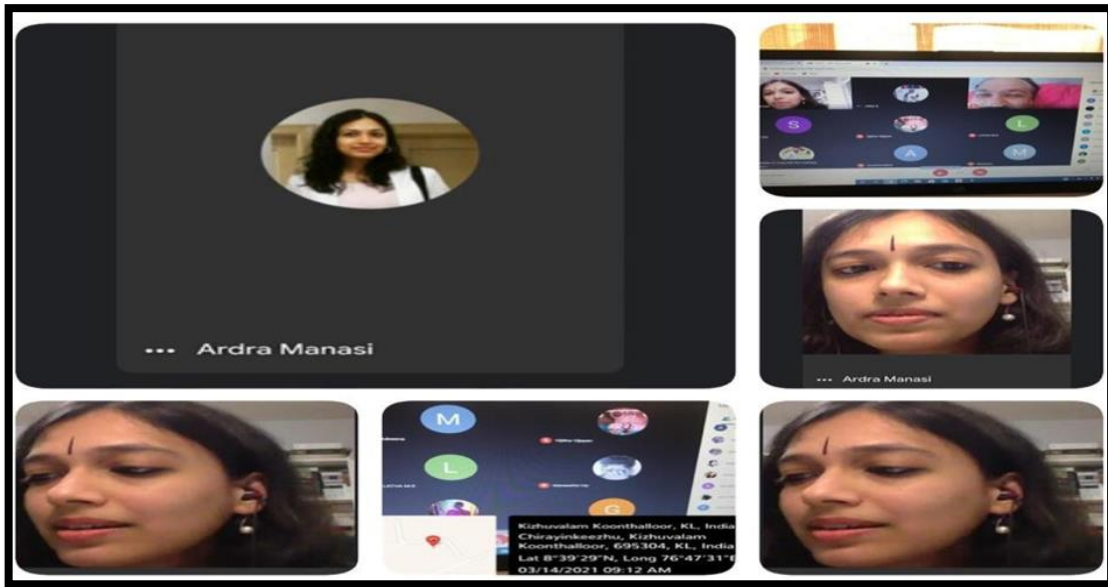

Webinar on “Entrepreneurship and Ethics: Reputation as a differentiator” by Ms Jija Mahadevan, IPS Officer.

Online interaction with Dr. R. Raveendran, Emeritus Professor

Webinar on “Research methodology”

The Science Club and Department of Chemistry, Sree Narayana College, Chathannur have jointly organized a webinar on Research Methodology by Dr. Achuthsankar S. Nair, Professor, Department of Computational Biology & Informatics, University of Kerala, on 15th January 2022. Dr. Achuthsankar gave an enlightening speech on Research methodology discussing various steps in research process and how to write research articles, its publication procedures etc. Dr. M. S. Latha, Principal, and Dr. N. B. Sreekala, the head of the chemistry department, spoke at the event. The event was coordinated by science club members Dr. Vidhya R. V., Assistant Professor, Department of Chemistry and Mrs. Muthu S., Assistant Professor, Department of Chemistry. Faculties of all departments, undergraduate and graduate students attended the webinar held via Google Meet. National Science Day celebration on 28th February 2021.

Webinar on the topic “Research Methodology” by Dr. Achuthsankar S. Nair.

Webinar Series entitled “SYNERGY”

The Department of Chemistry hosted a webinar series from 08/08/2020 to 13/08/2020 handled by distinguished personalities in the field of chemistry on diverse topics through Google meet platform. The participants for the webinar included our students as well as individuals from allied branches of Chemistry.

Webinar on “Career in Cinema”

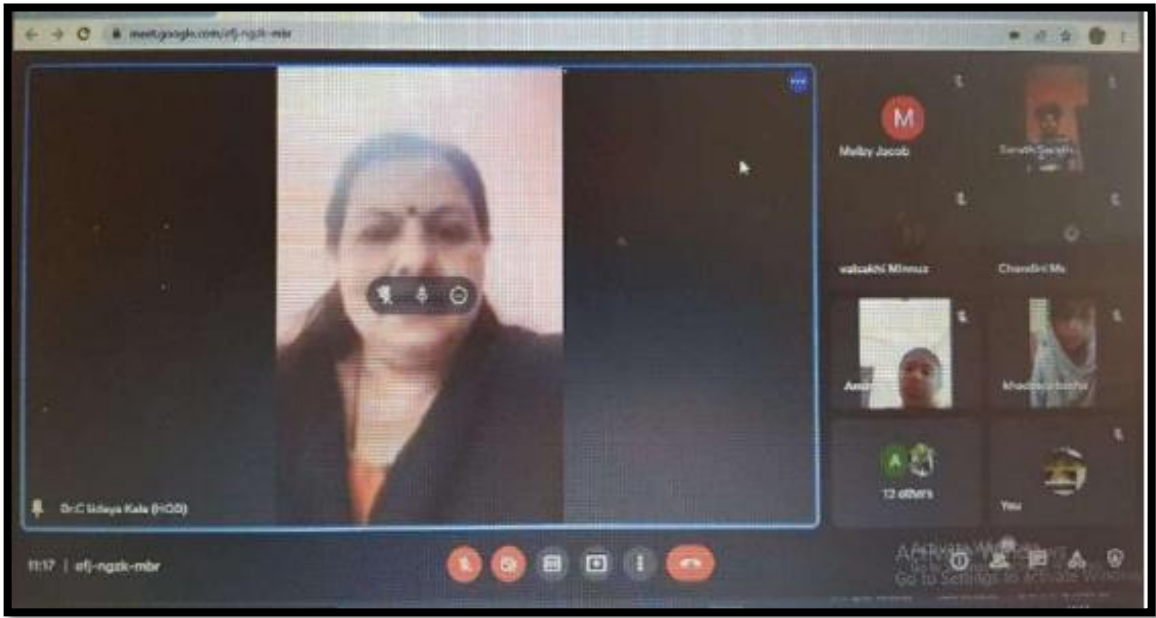

On August 6, a webinar on Career in Cinema was organized by the Department of Malayalam. The famous filmmaker and writer Sri. Madhu Eravankara was the Guest Speaker. The webinar was conducted through google meet platform and many students and teachers from various colleges across the state participated in it.

Webinar on “Career in Cinema” handled by Sri Madhu Eravankara, Filmmaker.

Webinar on “Bheemante Dharmasankadangal Randamoozhathil”

On March 19th 2022, a webinar on ‘Bheemante Dharmasankadangal Randamoozhathil’ was conducted by Malayalam Department. The Guest Speaker of the webinar was Dr. C. Udayakala, HOD & Assistant Professor, Department of Malayalam, All Saints’ College, Trivandrum. It was an informative one. The Deconstruction of the character ‘Bheema’ by the veteran writer Sri. M. T. Vasudevan Nair was presented remarkably by the speaker. Dr. M. S. Latha, Principal of the college presided over the function. Dr. Kiran Mohan M., Assistant Professor, Department of Malayalam convened the webinar. Teachers from various colleges participated in the webinar. The students at the college actively participated in the webinar.

Screenshot of Webinar titled “Bheemante Dharmasankadanga Randamoozhathil’.

Seminar on “Air Pollution”

In connection with World Environment Day 2019, a seminar on “Air Pollution” was conducted on 21/06/2019, sponsored by Kerala State Council for Science Technology & Environment. The seminar was handled by Dr. Shalom Gnana Thanka V., Professor, Department of Environmental Science, University of Kerala, Karyavattom. Along with the seminar, paper presentation was conducted which was actively participated by the students.

Seminar on “Air Pollution” by Dr. Shalom Gnana Thanka V, Professor, Department of Environmental Science, University of Kerala.

2. Workshops

Sree Narayana College, Chathannur organizes workshops on regular basis which enrich and update the knowledge and competency of students.

Workshop on GST & Overview of Union Budget

The PG Department of Commerce had successfully organised a two-day offline workshop on 4th March, 2021 entitled, “GOODS AND SERVICE TAX (GST) & AN OVERVIEW OF UNION BUDGET 2021-2022. The session was handled by the eminent invited resource person C. M. A. Shibu Gopi. The topic gives an outline and insight about the overview if GST, its application, Provisions, benefits. The introductory session designed in the first day of workshop enlightened the students’ knowledge about GST and its applicability. The second day workshop provides an overview of the subject GST as part of the syllabus for the PG third semester. An interactive session was imparted during the last half an hour session of the program. The Union Budget booklet for the year 2021-2022 were handed over to the principal and to the HOD of Commerce Department by the Mr. Shibu Gopi, the invited personality of the workshop.

3. ICT tools used by Faculties

Information and Communication Technology (ICT) is a mode of communication technology used to communicate, enhance, and optimize the delivery of information in the classroom by the teachers. ICT is the most effective mode of communication used in teaching-learning process to improve the learner's/students' learning ability, attention, interest, creativity and think critically. Basically, ICT improves the quality education and motivates the students to learn more and create active participation.

Teachers of Sree Narayana College, Chathannur uses Information and Communication Technology (ICT) tools for effective teaching-learning in the classroom. Departments like

Commerce, Mathematics, Commerce, Chemistry, Physics, English, Malayalam, Hindi etc., uses the ICT tools for better improvement and understanding in the classroom. ICT tools includes E-resources and techniques like Google classroom, Power Point (PPT), WhatsApp, PPT Slides, Multimedia classes, Practical Oriented, Audio-Visual Teaching aids, YouTube Channel etc. The main objectives of using ICT tools in the classroom is to improve the students' understanding level, attract attention and interest and active participation of the students. The teachers of Sree Narayana College, Chathannur aims to motivate the students and arouse curiosity to learn. Teachers create a collaborative and friendly environment in the classroom to interact and exchange information with one another.

During the Covid19 Pandemic, the College was closed, and classes were on hold so, in order to complete the syllabus, the College started using Google classroom, Google Meet, Zoom App, etc. The competency level of both the teacher and students has enhanced because of the active participation in the classroom ICT is not only helpful for students but teachers as well. Teachers' professional development and their knowledge is enhanced with the use of ICT in classroom. Teachers are provided with new sources of knowledge and information. It motivates both students and teachers for self-learning and develops their confidence. The use of ICT in the classroom helps in the smooth functioning of the classroom and produces a quality education. It has become easier for the teachers to communicate with students with the advancement of technology.

YouTube classes:

Availability of online classes in the platforms like YouTube are an intuitive addition to modern learning environments. Educators, students, and parents all agree on the effectiveness of online videos as a teaching-learning tool. The best thing about YouTube videos is that they can easily be integrated into a variety of educational systems especially online education. Video-assisted learning is a new trend in the education industry as it provides students an interesting way to learn and understand complex concepts and subjects.

ELECTRONICS: BIPOLAR JUNCTION TRANSISTOR (BJT)

V_{BE} across the base-emitter junction is provided by the emitter bias network consisting of resistors R_1 and R_2 connected to the supply voltage V_{CC} . This ac component of the input signal is applied to the base through a coupling capacitor C_1 . The emitter resistor R_E bypasses the ac component of the input signal. This ac component of the input signal does not influence the DC biasing of the transistor.

YouTube Class by Smt. BhavyaSree, Department of Physics.

Moodle:

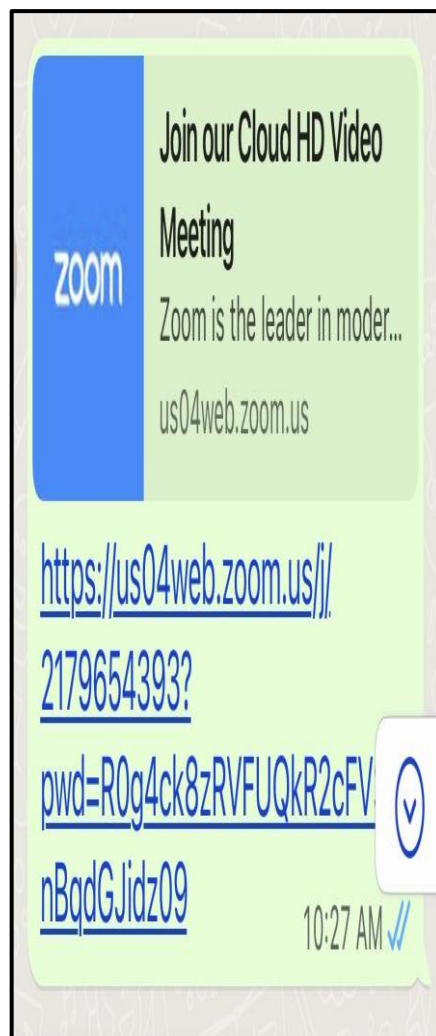

Moodle is increasingly being used as a platform during COVID 19 pandemic by some faculties for adaptive and collaborative learning and used to improve online assessments. The use of Moodle is developing rapidly to address academic integrity, ethics, and security issues to enhance speed and navigation, and incorporate artificial intelligence.

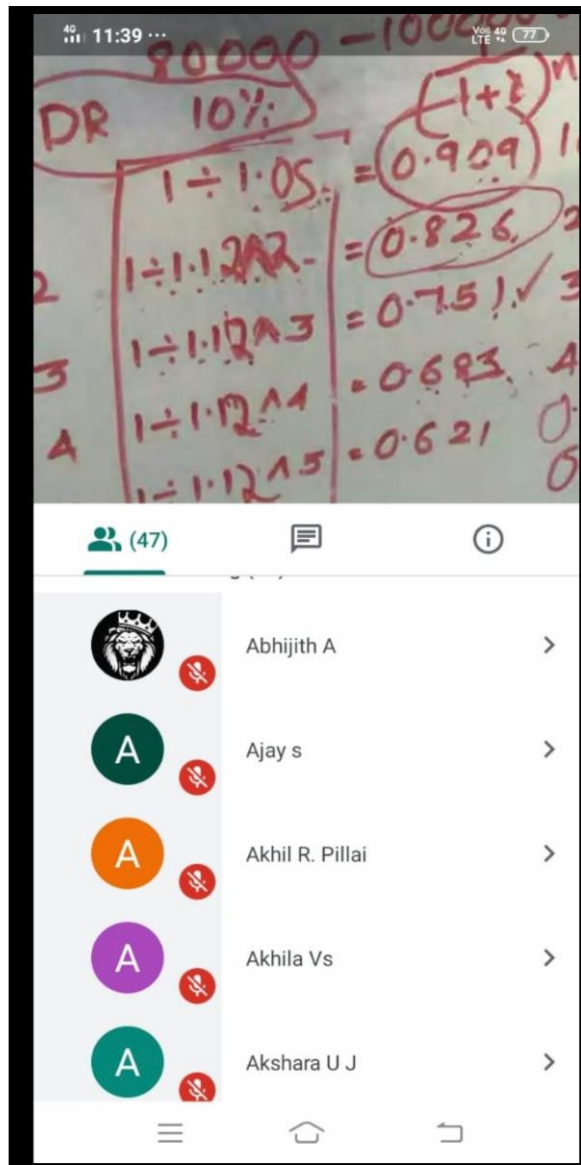

Moodle Class engaged by Faculties.

Zoom & Google Meet:

All teachers of the institution use ICT for conducting classes and regular assessment. Our teachers take online classes on Zoom cloud meet or Google Meet platform incredibly well at adapting to the online environment effectively from the onset of pandemic. Students had cope up with online teaching and teachers had done incredibly well at adapting to the online environment.

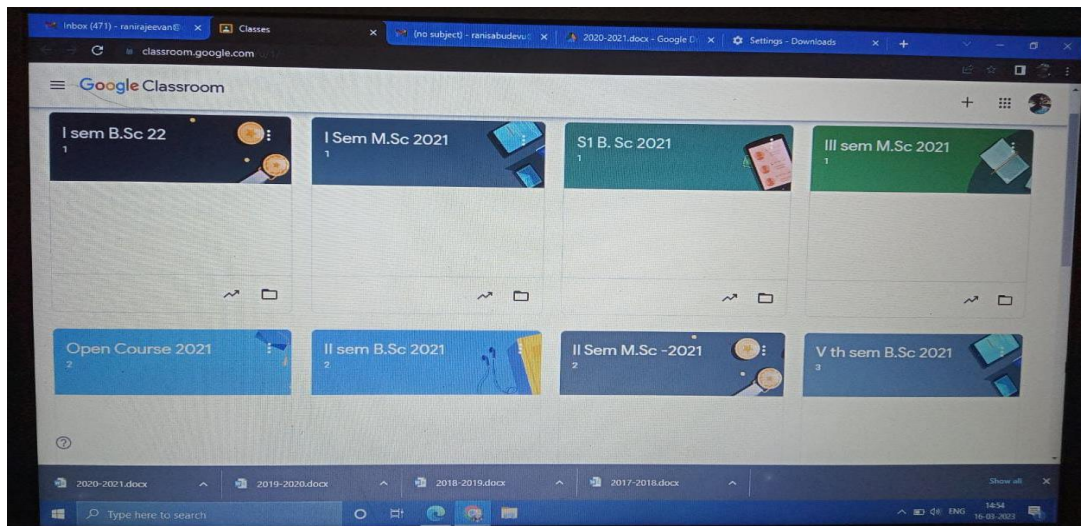

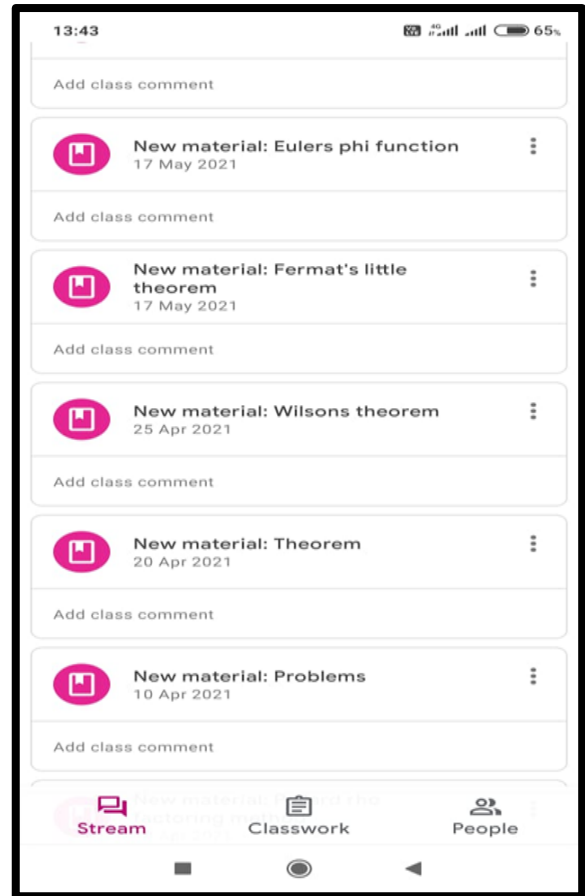

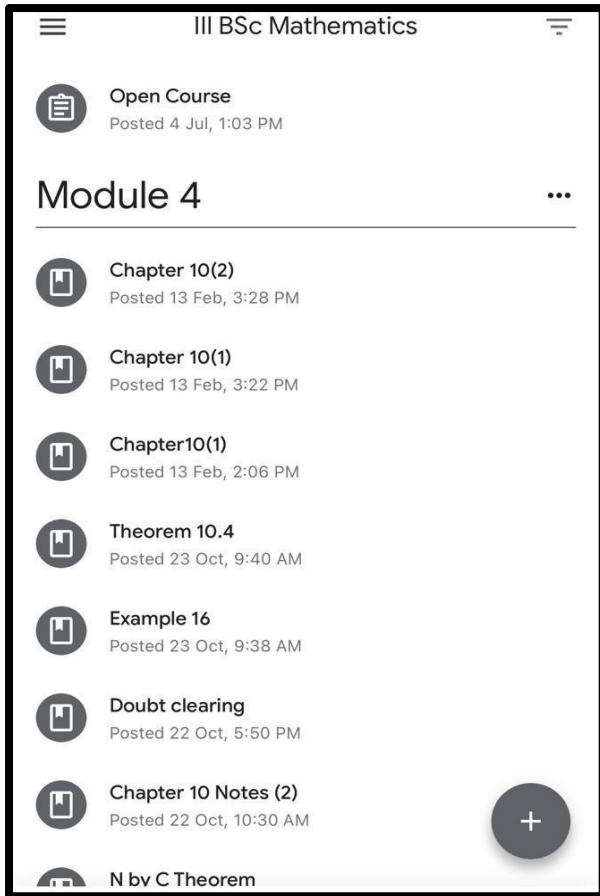

Faculties engaging classes through Online platforms.

Google Class room:

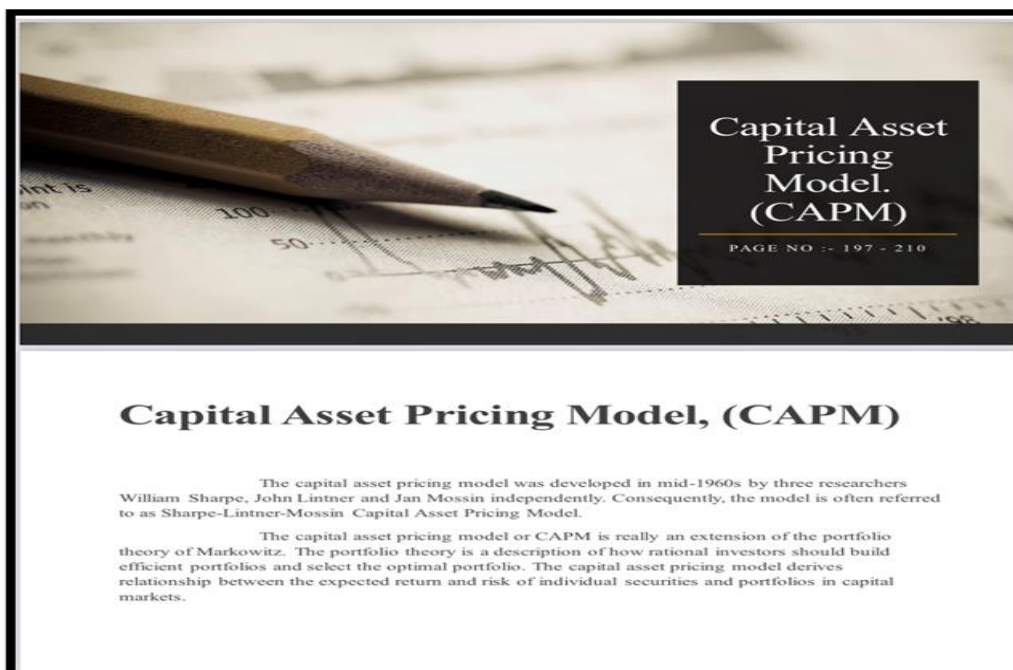

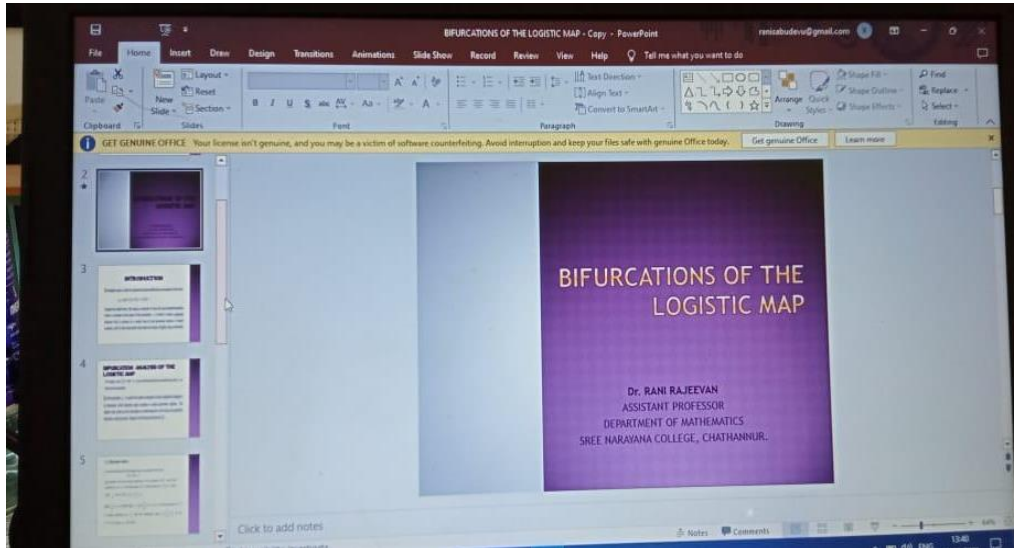

Most of the faculties had created google classrooms for uploading notes, videos etc.to the students. The major advantage of google classroom is that the students can refer to the materials at any point of time.

Faculties sharing Study materials through Google Classroom.

Power point Presentations:

PowerPoint is an educational tool for teaching and delivering materials in classes. It was basically developed for presentation and not essentially for teaching and learning in a classroom. Its applications in teaching and learning settings should provide better means of communicating information to the students.

Screenshot of PPT slides prepared by faculties.

Blog:

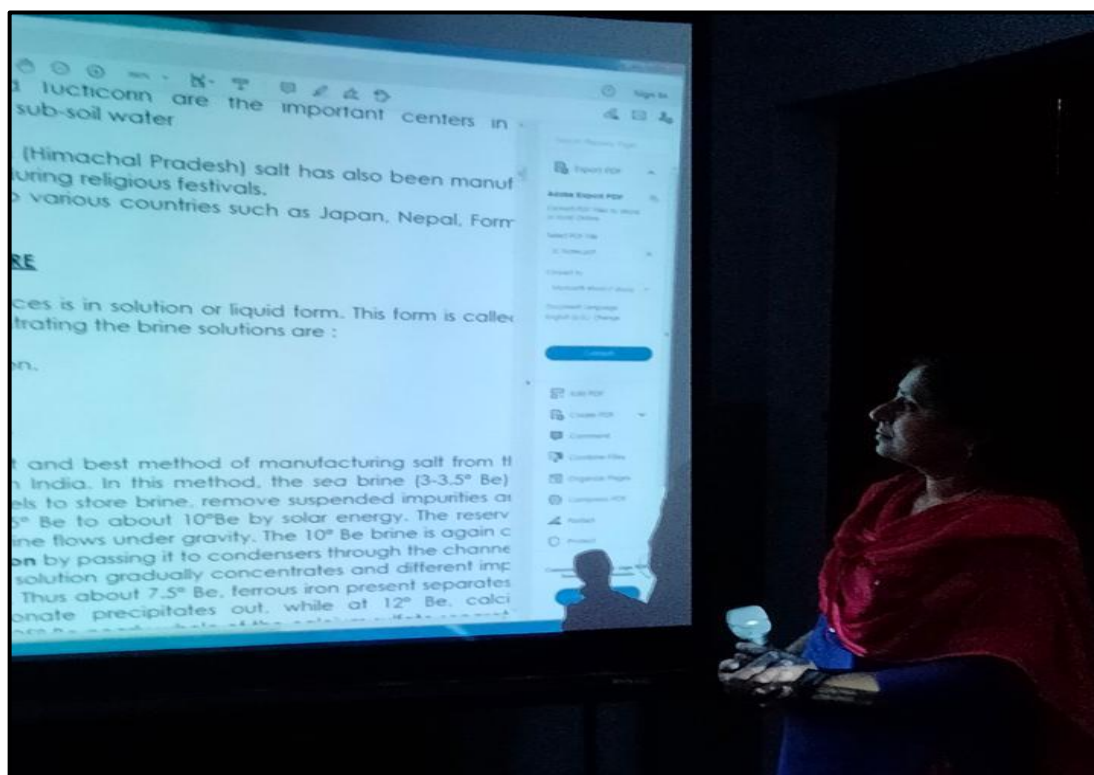

On the day of Keralappiravi, November 1st 2021, the Department of Malayalam initiated a blog named 'KA CHA DA THA PA'. It was officially inaugurated by Adv. Sri. V. K. Prasanth, M. L. A. of Vattiyurkkavu constituency, Trivandrum District. 'KA CHA DA THA PA' aimed at nurturing the creative talents of the students. It is a platform where students can publish their creative works such as literary works, drawings, art works, songs, dance forms, mimicry etc. (<https://srishtimalayalam.blogspot.com/>)

Inauguration of Blog-Dept of Malayalam.

Projector:

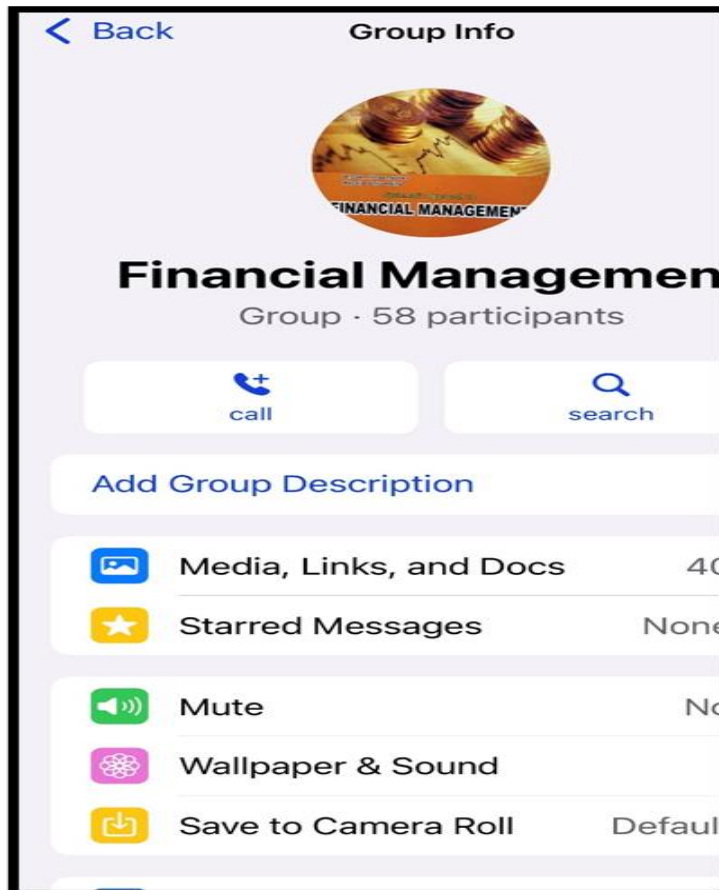

Projectors are now paving the way seamlessly for teachers to concentrate on teaching and for learners to effortlessly learn. Projectors add visual impact to the teaching process, helping teachers put the point across more succinctly. Not only is perception improved with this teaching aid, a more lasting impact is also generated. Projectors for educational and training purposes are an excellent investment to enhance the communication process.

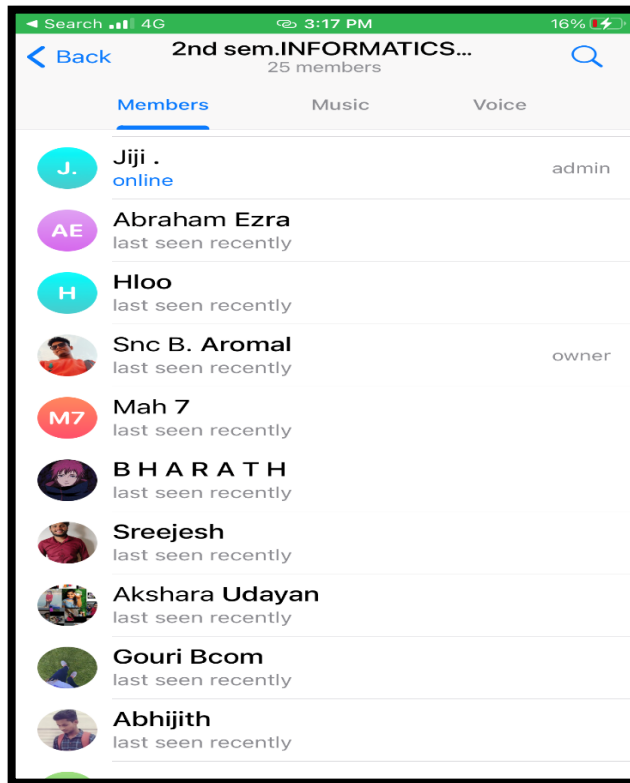

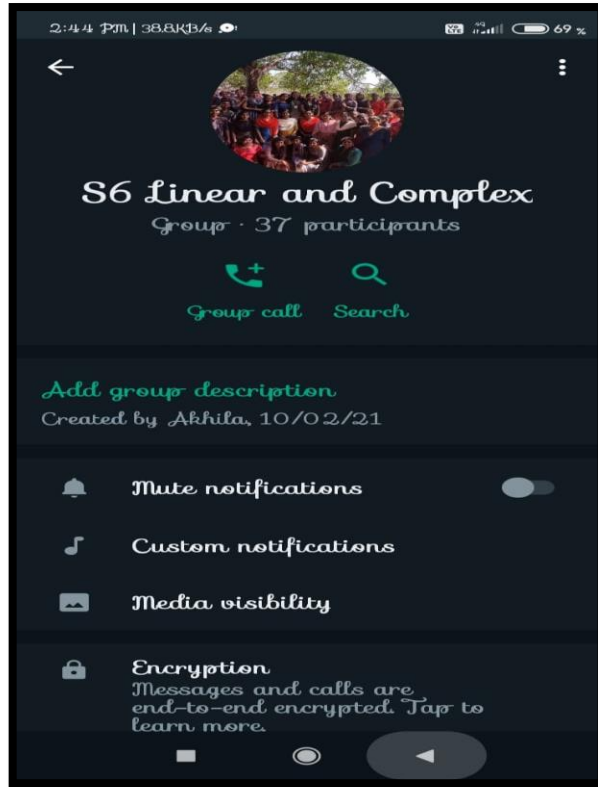

Faculty engaging classes using Projector.

WhatsApp and Telegram:

For effective implementation of teaching learning process during COVID 19 outbreak, subject wise WhatsApp Group were created by faculties which serve as interactive platforms round the clock for timely release of announcements regarding special classes, assignment submissions, doubt clarifications, etc. for interacting with students and providing study materials.

Screenshots of Whatsapp group created by faculties.

Gurukulam Fest: An online fest under the Flagship project “Gurukulam”

The Gurukulam fest was formally inaugurated online by our honourable Vice Chancellor Sri. Mahadevan Pillai. Our College Principal Dr. M. S. Latha presided over the function. Gurukulam project started during lockdown period aimed at enriching the various aptitude skills of students in various fields like music, dance, yoga, violin, communicative English, Korean language and Arabic language. This was carried out under the leadership of various renowned teachers through online mode. This day witnessed honouring of the teachers who gave training and also the performance of students who were receiving training for 1 year. The event served as a platform for the students to exhibit their talents and to involve in a healthy competition which was later appreciated widely. It has been such a pleasure and honour to lead this amazing organization for more than one year and to celebrate this occasion we planned an event which turned out to be a beautiful one with flying colours. The program was a grand success where the winners were given awards offline.

6. Student Seminar

A student presentation is a channel for students to share with others what they have learnt. It is also a chance to challenge and expand their understanding of the topic by allowing other students to ask questions. Student Presentation skill helps to create innovative ideas when students come up with creative and interesting slides to illustrate their ideas. The use of presentation aids makes the talk interesting, and the creation of such aids can develop students' confidence.

7. Group Discussion

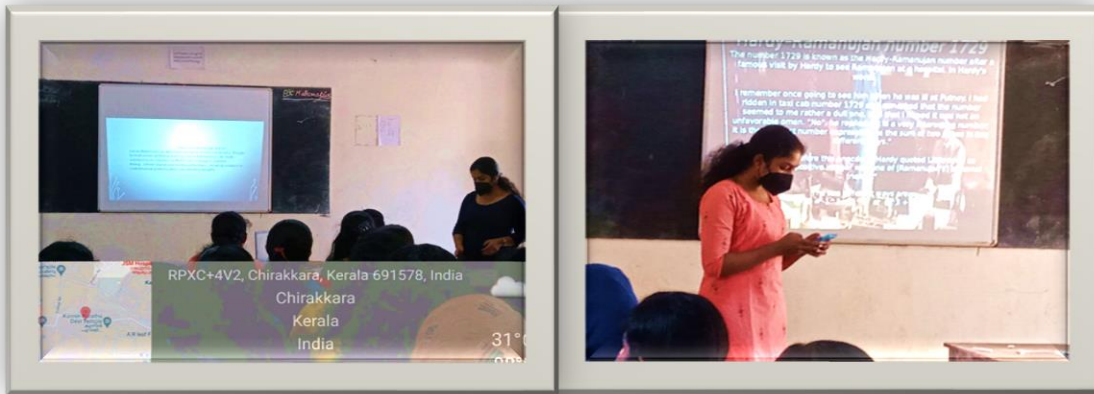

Group Discussion is a popular methodology used by all departments to gauge students' certain personality traits such as interpersonal communication skills, confidence in public speaking, team spirit, leadership abilities, social behaviour, and problem-solving skills.

Group Discussion conducted by students on” Gender Equality”.

8. Students' Paper presentations

Students are encouraged to present papers using ICT tools, to explore more into their disciplines thereby they are getting opportunities to interact with the resource persons and get a better understanding of the concept discussed.

Paper presentation by Students, Department of Mathematics.

9. Poster Presentation

A poster presentation is a way to communicate the ideas or understanding of a topic in a short and concise format. It usually includes two elements - a poster and a brief explanation.

Poster Presentation conducted as part World Ozone Day on 16/10/2019.

10. Quizzes

A quiz is a brief assessment used in education and similar fields to measure students' knowledge, abilities, and skills. It helps to retrieve information from memory, and that such effortful retrieval turns out to be a powerful prompt device in many circumstances. It is an assessment that can be used not only to test what students have learnt but can also be used to motivate students to learn more.

11. Students participation in Seminar, Webinar, Workshops etc.

Nowadays, the market is very much demanding and we often come across the issue regarding the level of higher education not meeting the industry expectation. To bridge this gap and equip the students of current generation with new-age technologies, seminars and workshops play an imperative role. Ensuring a proper flow of knowledge Seminars and Workshops assist in passionate interaction and active participation boosting the skills and expertise of students. Importance of seminars and workshops for students is often acknowledged as a prime concern. Keeping in mind the importance of seminars for students and the benefits of workshops for students, students are encouraged to attend seminar, webinar, online quizzes, workshops.

E-Certificates received by Mr. Aromal S. Biju, Third year B. Com Student.

12. Case Study Analysis

Case studies present realistic, complex, and contextually rich situations and often involves dilemma, conflict, or problem that one or more characters in the case must negotiate. A good case keeps the class discussion grounded upon some of the stubborn facts that must be faced in real-life situations. The case-study method provokes student thinking and analytical capabilities. It is a major instrument adopted by Commerce faculties that helps in developing such skills in a learner-centered world.

<p>City Hospital was losing money and the hospital's executive director knew action had to be taken to reduce expenditure. Since a major portion of the costs were labour-related, the choice was clear—reduce staff. A natural target for staff reduction was the fifth floor. This unit generally served "observation" patients but had been less than half- full for some time. Fifth-floor patients could be easily reassigned to other units, and closing that floor would save a significant amount of money. Approximately forty employees worked on the fifth floor, all of them reporting to Lily Joe, the nurse manager.</p> <p>Hospital management decided that since her floor was being closed entirely, Lily's services would no longer be needed. There were, however, some complicating factors. First, the hospital had a policy of "reassignment" rather than "layoff" and thus had a commitment to place the fifth-floor staff in other open positions for which they were qualified within the hospital. While it was unclear how many of the 40 displaced staff could be moved to other areas, management knew that many could be accommodated. Second, most of the employees on the fifth floor were long-term staff who had become somewhat "set in their ways", compared to the employees in other departments; indeed, the fifth floor had developed a reputation for being an uncooperative group that consistently resisted even the most minor change, and most strangers felt that the quality of care provided by the fifth-floor was marginal at best. Similarly, Lily was generally regarded as the least effective of the hospital's nursing managers. As are of all of these factors, Managers in other units were reluctant accept displaced fifth-floor workers.</p> <p>A series of management meetings took place to plan the closing off the fifth floor meetings were conducted by the management and head of nursing and attended by the hospital's nurse mm as well as the director of personnel, director of public relations, and a communications labour relations consultant. Initially, management had considered keeping Lily out of these meetings, but later decided that it would look better if she would be included in the process. During every meeting, Lily cried openly, much to the discomfort of the others present. Everyone who participated in the meetings was sworn to secrecy; no one was to mention the closing of the fifth floor until the plan was completely developed and announced. Nevertheless, rumors quickly began to circulate that something was "in the workers and that the fifth floor specifically had been target by the management.</p> <p>Eventually, a plan was developed. On the following Wednesday morning, the deputy head of nursing and the director in charge of personnel would meet with the fifth-floor and "to tell them the news and provide them with details either about their move to other units (for those for whom other positions had been found) or (for those who would be laid off) about the strikingly generous severance package the hospital was providing. Immediately afterward, this same information would be announced at a general meeting of all management; simultaneously, the hospital's Chief Medical Officer (CMO) would conduct a meeting of the medical staff. Individual letters, signed by the director general, would be couriered to all employees on Monday (so that most would reach by Wednesday), and departmental meetings for employees would be conducted on Wednesday afternoon to discuss the situation in detail with all the staff</p>	<p>Finally, the news media would be contacted late Wednesday afternoon and provided with statements, which would appear on Thursday. On Monday, two days before the layoffs were to occur, the group met with the CMO of the hospital, Dr Manoj Mehta, and the chief administrative offices (CAO) to review their plan. Much to their dismay, Dr Mehta and General Khurana (General Manager) both reacted extremely negatively to the plan. Both wanted to know exactly how many people would be laid off. The group was unable to produce exact numbers, since the number of vacant positions fluctuated almost daily due to resignations and new hires. "Nursing never gets its numbers right!" Dr Mehta roared in frustration. In addition, General Khurana strenuously objected to having the letter to employees come from the director general. "We've got to stop passing the buck and shoving the blame upward", he argued. Both demanded specific numbers and significant changes in the announcement letter drafted by the group before they would allow the plan to move forward.</p> <p>At the same time, however, the organization's grapevine was functioning at full throttle. The fifth-floor floor was going to be closed, probably this week, the rumour mill held. Indeed, the fifth-floor employees themed " had apparently gotten wind of the plan. On the computer system, one fifth-floor employee typed an announcement that was communicated throughout the hospital. "We're long-service, formerly loyal employees who are about to be kicked out onto the street by the hospital. If you would like to help, we are starting a fund collection to help support those who will be hurt by this. Please send your contribution to (name, address of fifth-floor employee)</p> <p>On Wednesday, fifth-floor employees came to work dressed in black and wearing black armbands. They covered the curtains in patient room with black sheets, much to the dismay and confusion of the patients in those rooms. When no one came to tell them their floor was being closed, they became all the more upset. On Thursday tension mounted. While senior management continued to debate the numbers involved in the layoff and the appropriateness of the communication plan, the fifth-floor employees waited for someone to tell them to go home. Eventually, the situation became unbearable. One nurse began to cry, and soon all were sobbing and hugging each other. The personnel director was called, and when she went to the fifth floor and saw what was happening, she told all of the employees to just go home. With the help of the deputy head of nursing, she oversaw the hurried transfer of fifth-floor patients to other floors. - On Friday, the hospital announced that the fifth floor had been 'closed</p> <ol style="list-style-type: none"> 1. Give a suitable title for this case 2. Discuss the main issues in the case 3. Give a suitable solution for solving the chaos

Case Study -Department of Commerce.

13. Peer Teaching

Peer teaching is one of the best ways to master a particular subject. Peer teaching involves teaching and learning strategy where students, by design, teach other students. This paves the learner-student to learn without depending upon the teacher, and the teacher-student to revise the topic again, on the belief that “To teach is to learn twice”. Through the direct interaction among students, peer teaching promotes active learning as well as participation. Student teachers enhance their depth of knowledge on the topic by instructing others. Some benefits of peer tutoring for students include higher academic achievement, improved relationships with peers, improved personal and social development as well as increased motivation.

Peer Teaching, M. Sc Mathematics.

Peer Teaching, Department of History.

Sree Narayana College, Chathanur

Department of History

Date :- 08-11-2017

Time :- 1 hour (03 PM - 04 PM)

Class :- 1st BA History (2017 admission)

A peer teaching class was conducted today for the 1st semester students. Today's class was taken by Gouri Krishnan. She spoke about the topic 'Interdisciplinary approach of history'. 17 students participated in this class. Students shared their ideas they knew about the discussion topic. This class was very effective, as it helped them to gain additional knowledge.

14. Student Projects:

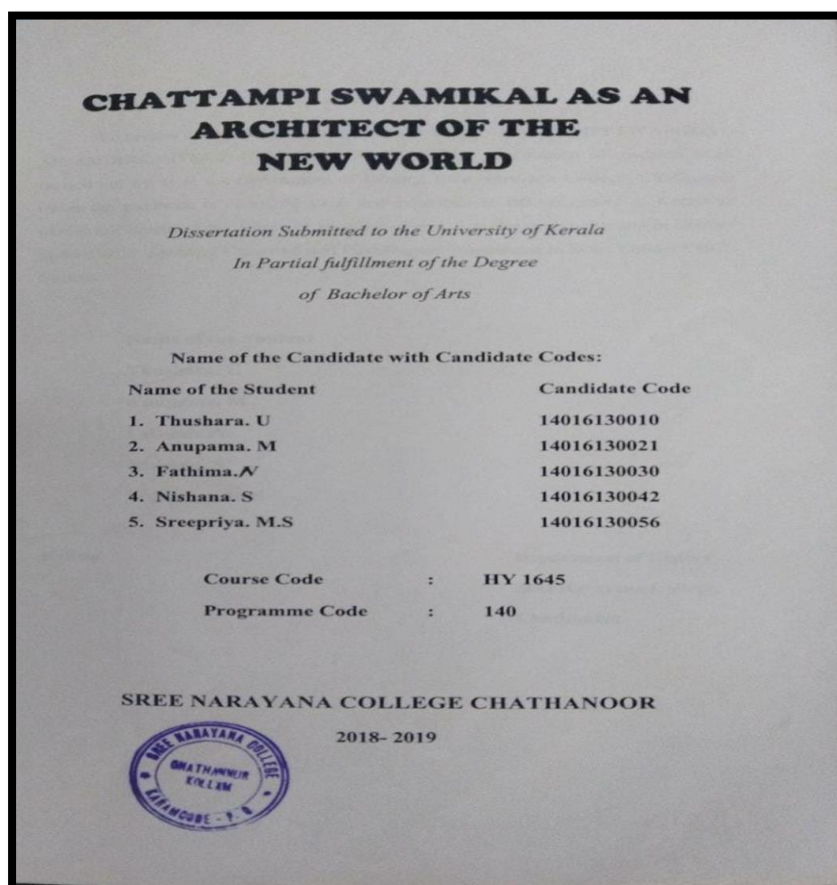

Projects ensure active learning on the part of student by approaching a problem in a systematic manner and provide solutions by engaging in critical thinking. All projects include realistic planning in a time bound manner and researching about the issue and possible solutions from a holistic angle. It ensures creative thinking and application of the knowledge and skills learnt beforehand. Group project endorses participative learning among the students and the mentors through collaboration.

15. Industry Visit

Chemistry Department and ED Club arrange industry visit for students to provide exposure and to get insight into the internal working environment of the companies. It sensitizes students to the practical challenges that organizations face and helps the student in internalizing the different facets of the functions and technologies being used in the organizations and industries.

Industry Visit @ NIIST, Trivandrum.

16. Community Works

Giving back to the society whatever little we can, this is the small thought that led to this massive community service programs. The aim of these programs is nothing but the well-being of the society. Being able to interact with people and bring about solutions for the various problems in their daily life is something that the students our college have mastered at this young age. The program teaches the students how to be socially responsible as citizens. The main idea, however, is to inspire - inspire the youth to take this up as an example and bring about a change in their own way.

Flood Relief - Material Collection.

Students Cleaning Flood Affected Areas.

Students hands over flood relief materials.

Old age home Visit

Students supplying and sharing food with inmates of Karunalayam orphanage.

Palliative Training

18. a) Student support programme

Scholar Support Program envisions to provide continuous support to needy students of the undergraduate courses of Govt. and Aided Arts & Science Colleges in Kerala. The annual plan envisages extending support to scholars in the Under graduate program with timely assistance in terms of Tutorial, Additional Lectures, Interactive sessions, question bank and study materials.

Ever year substantial number of undergraduate students fall in the university examination and many of them drop-out of the college. Research evidence points to several reasons for low academic performance and drop out. Systematic & continuous interventions can improve college students academic performance and helps to prevent drop – outs. Building on this idea, the Scholar Support Program aims to identify students who are unable to perform well in the university exam and understand the possible reasons behind their academic difficulties. Improve the academic performance of low scoring students (increase the mark in semester).

Internal mentoring- Industrial Chemistry

Internal Mentoring -B Sc Mathematics.

b) Walk with a Scholar Programme

Walk with a Scholar (WWS) Scheme has been designed to arrange specialised mentoring programmes for students in under graduate programmes in art, science and commerce and to provide guidance for their future career. The scheme introduces the idea of mentoring and builds on the concept of mentor as a **‘Guide’ and ‘Friend’**. The walk with Scholar programme started with the **aim** of getting specialized mentoring to students especially in under graduate.

Internal mentoring classes

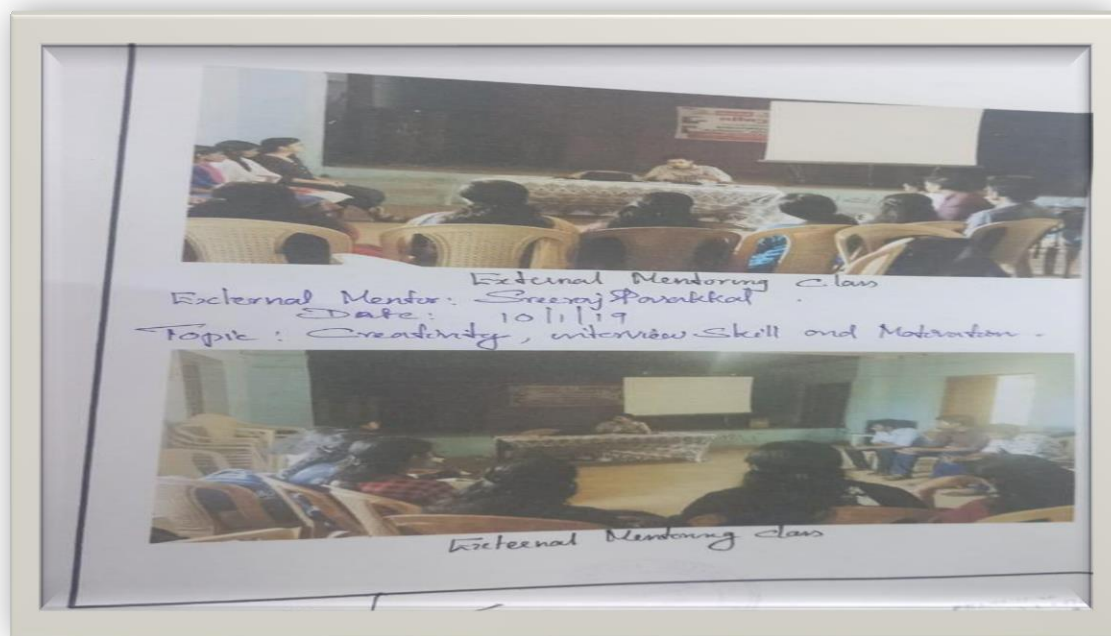

Internal Mentor: Nisha T. V., Assistant Professor of Commerce.

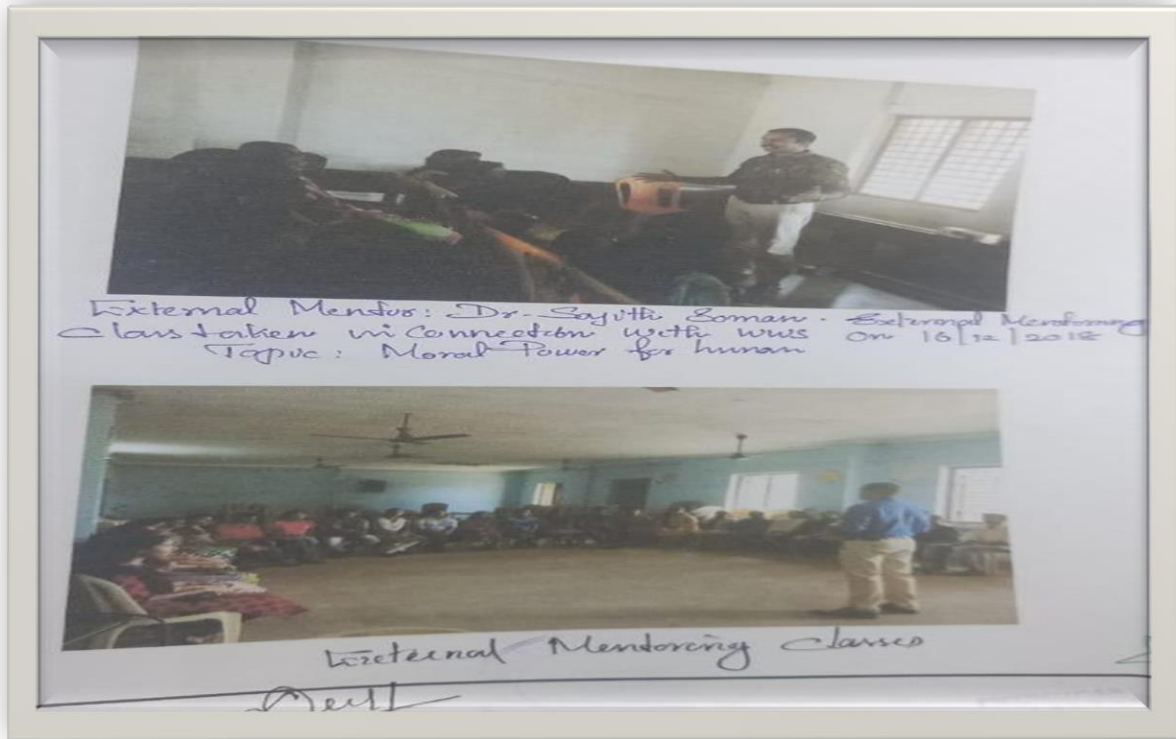

Internal Mentor: Muthu S., Assistant Professor of Chemistry.

External mentoring classes

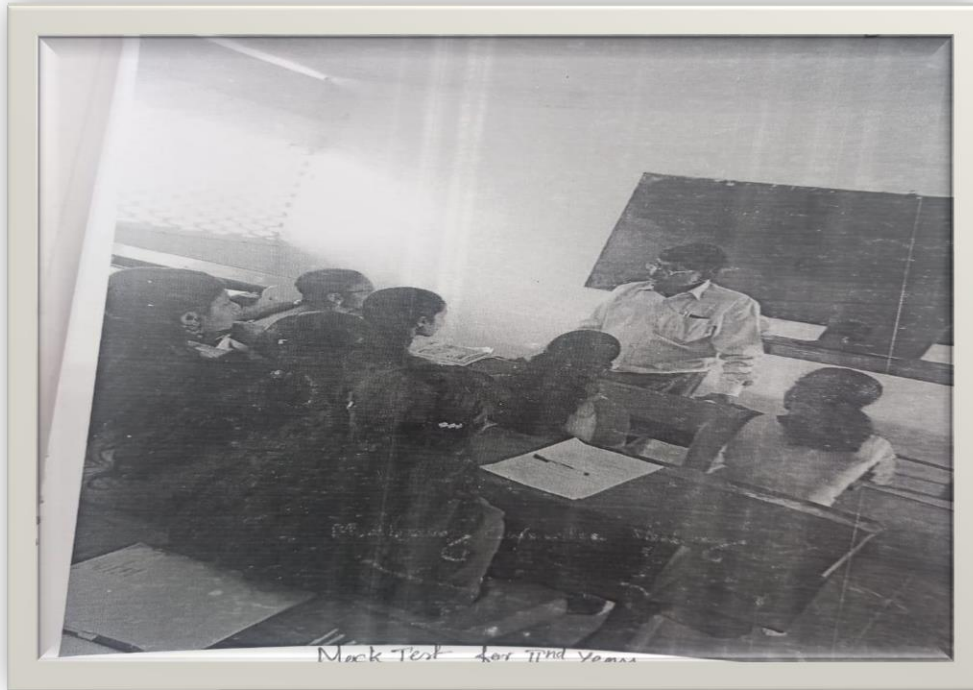

External Mentor: Sreeraj Parakkal, Training and Placement Officer, Bishop Jerome Institute, Kollam.

External Mentor: Dr. Sajith Soman, International Trainer.

External Mentoring by C. N. Ajay Kumar, Director New Dans Life Skill, Hyderabad.

Mock test class by Joseph Sebastian Morris.

c) Additional Skill Acquisition Programme

Kerala, traditionally known for its high quality man power spread all over the World and with a high density of science and technology personnel, have always set a model for the nation in developmental issues. The realization of the fact that its unemployed population kept swelling despite having a rich talent pool, made it think and devise ways to counter the trend. It is in this context that the Additional Skills Acquisition Programme (ASAP) has been developed to envisage the development of skill programmes which in turn make the students equipped with sector specific skills to make them employable.

Accordingly in our institution, several programmes were scheduled and conducted successfully under the scheme ASAP.

Programmes organized under ASAP

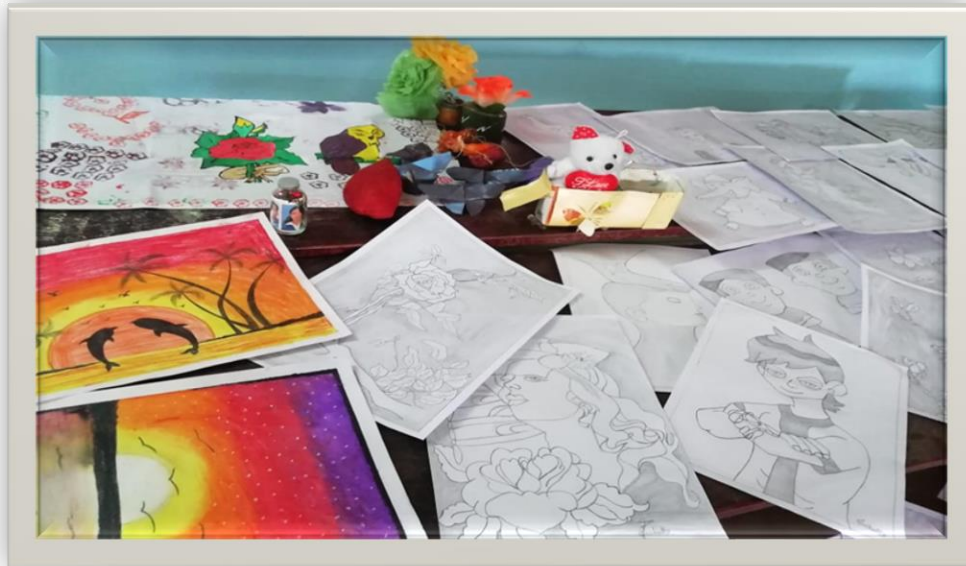

Orientation Session-ASAP

Motivational session by an alumnus

Mime on the Topic “Overuse of mobile among students.”

Skill Exhibition

Glass Painting

Tribute to Dr. A. P. J. Abdul Kalam.

Presentation by an ASAP ian

19. UGC Skill Courses

Sree Narayana College, Chathannur is affiliated to the University of Kerala offering meritorious and higher education courses for both undergraduate and postgraduate students. The college provides immense ample opportunities in terms of curricular, co-curricular and extra-curricular development and value-based education potentiality for students.

Diploma Course in GST & Income Tax Practitioner

The Diploma Course in GST and Income Tax Practitioner Course would initiate probable placement opportunities for talented and aspiring students. Enrolling and studying in the course of GST and Income tax Practitioner provides an immense career opportunity for the students by way of self-employment and employment in the industry. The students after the completion of the course can provide consultancy services to other tax players thorough online mode also. Numerous opportunities are available to the eligible students aspirants in various fields such as Accountant, Junior Accountant, Accounts Executive, Tally Accountant, Import Export Faculty etc. It is assured that the students will be well placed thorough campus placement and other job interviews in highly reputed institutions. The institution agreed to conduct campus interview for the placement of students after the completion of job-oriented GST and Income Tax Practitioner course as well.

Diploma Course in Molecular Docking

Department of Chemistry, Sree Narayana College, Chathannur has well-coordinated and successfully consummated its UGC approved one year Skill based Diploma Course (under National Skills Qualification Framework (NSQF), sanctioned to the college in the year 2020. This skill-based program was intended to provide basic expertise to students in computational drug discovery process, starting from CADD fundamentals to drug approval process. Course was designed in a such way to cover all the recent developments in the field of CADD and included training sessions in various molecular modelling techniques and in computer aided drug design. The hands-on practise sessions included in this course equipped the students to handle various drug docking tools. This diploma course was inaugurated by Dr. Achuthsankar S. Nair, Professor and Head, Department of Computational Biology and Bioinformatics, University of Kerala on 10/03/2020 with an introductory talk “Molecular Docking”.

This Diploma program in Molecular Docking aims to provide basic expertise in drug discovery process, starting from CADD fundamentals to drug approval process. This course will explore the current strategies and techniques for identifying drug targets, lead compounds, and in addition to that, the proposed program will provide training in various molecular modelling techniques that can be applied in computer aided drug design. The hands-on practice sessions included in this course will equip the student to handle drug docking tools and software and the students will learn to design combinatorial libraries. The course will also cover the procedural practices in getting approval for newly designed drug and patent acquiring formalities.

**DIPLOMA COURSE IN
Molecular
Docking**
(1 YEAR)

This course will explore the current strategies and techniques for identifying drug targets, lead compounds, and in addition to that, the proposed program will provide training in various molecular modelling techniques that can be applied in computer aided drug design. The Diploma course will provide a skill based learning platform, through which students would acquire excellence in handling bioinformatic / chemoinformatic tools and softwares, modelling molecules, designing combinatorial libraries and also get well versed in designing in silico drug molecules

**TOTAL COURSE FEE FOR
DIPLOMA COURSE
IS RS: 5000/-**

20. Certificate Courses

The institute has offered various add on/Certificate courses in all departments with a Quest to stay abreast of ever expanding academic frontiers. All such courses will be useful for enhancing their skills and knowledge of students.

Department of English

Course: Spoken English Course

Proficiency in English used to be an additional qualification that employers looked for when hiring employees. However, proficiency in English is now a necessity to succeed in the workplace, especially in the corporate world. For a student, improving their proficiency in English can open up more opportunities and give them a chance to explore the world.

Given the significance of English language skills, our college offered an online certificate course for Spoken English. The main objective of the course was to develop the communication skills of our students and thus make them career-ready.

Sree Narayana College
Affiliated to University of Kerala

ONLINE CERTIFICATE COURSE IN
SPOKEN ENGLISH (2020-2021)

OBJECTIVES OF THE COURSE

The course introduces phonetics, develops vocabulary, and improves the verbal and non-verbal communication skills of students.

Department of Chemistry

Certificate Courses:

Department of Chemistry, Sree Narayana College, Chathannur well conducted its first certificate course in food chemistry during the academic year 2017-2018. The duration of the course was six months and course started with 26 students. Classes were handled by the faculties of the department. The course was designed in a manner to provide students a better understanding of nature of food, its chemical composition, food packing and packaging materials, food preservation and also the basic skills which are essential for getting hired in food analytical labs. The course was intended for students who have interest in pursuing a career in this field. The students completed the course with good grades and the students were given course completion certificates.

21. Debate

A debate is a formal contest of argumentation between two teams or individuals. More broadly, and more importantly, a debate is an essential tool for developing and maintaining democracy and open societies. More than a mere verbal or performance skill, debate embodies the ideals of reasoned argument, tolerance for the divergent point of view and rigorous self-examination. Above all, a debate is a way for those who hold opposing views to discuss controversial issues without descending to insult, emotional appeals, or personal bias.

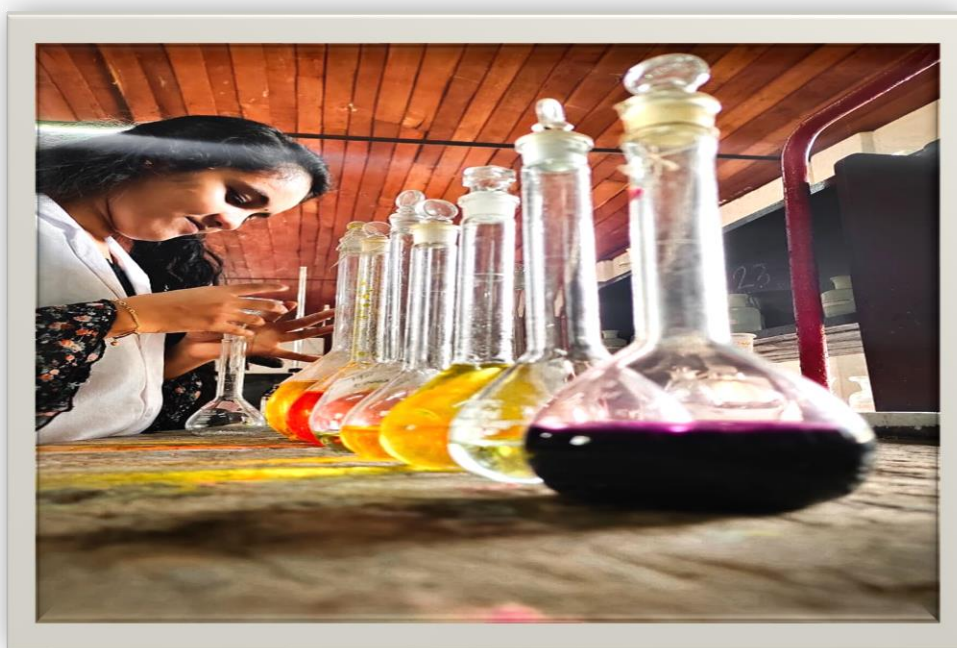

Debate conducted in Department of Commerce on the topic “Campus Politics”.

22. Laboratories

The lab facilities always cater the students' exposure in their concerned subjects.

Computer Lab, Mathematics Department.

Chemistry Lab, Chemistry Department.

23. Career Guidance Cell

In the efforts towards meeting students to survive competently in a career environment that is highly volatile, uncertain, complex and ambiguous (VUCA) the college maintains proper tutorial report of all students which are true reflections of their capabilities and preferences towards career spectrum. Teachers are asked to mould each student based on his or her innate skill set identified through various intervention programmes.

Career Guidance session handled by Mr. Amal on the topic “What after Graduate”.

Career Guidance and Counselling Program by Ms. Athira.

24. Student Magazines

The college promotes creativity amongst students by encouraging them to publish article in College Union magazines and in the magazines released by various clubs like Ethics Committee and Women Cell.

സ്മൃതികളിൽ തനിയെ

ഇടനാഴിയിൽ ഇടറാതെ ചുവരുകൾ തൊട്ടു ഞാൻ,
ഒരു ചെറു നോവിന്റെ സ്മൃതികളോടെ. . .

ഓർമ്മ തൻ വേരുകൾ ഇടനെയ്തിൽ മുറുകുമ്പോൾ,
തിരികെ നടക്കുവാൻ വെമ്പുന്നു ഞാൻ.

ഇടി ഞാൻ അറിയാതെ വീണു പോയ് നിന്നിലെ,
മുറിവേറ്റ മനസ്സിന്റെ ആഴങ്ങളിൽ. .

അറിയാതെ എന്നിലെ നീ എന്ന നോവിനെ,
മുറുകെ പിടിക്കുവാൻ കഴിയാതെ പോയ്.

നിന്നിലെ മൗനമെൻ നെയ്തിലെ തേങ്ങലായ്,
ഉതിർന്നു പോയ് ഒരു നൂറു പേമാരിയായ്.

ഓർമ്മ തൻ തീവ്രമാം കിരണങ്ങൾ ഏറ്റൊരേൻ,
ചില്ലുകൾ വാടി കരിഞ്ഞു പോയി.

തകരില്ലാതിക്കലും നീ തന്ന നിമിഷങ്ങൾ,
മരണമാം കൈകൾ പുണരും വരെ.

Gouri R. S., Malayalam Vercification

25. Field Trips and Study tours

Field trips and study tours are essential components of a students' learning experience. It is about exploring new environments and cultures. One of the most important benefits of an educational tour is that it subtly develops an understanding of various social issues around them. They become more empathetic and respectful towards other cultures as well as towards their own surroundings. Educational travel empowers them with a new and enhanced perspective to look at things and develops them into considerate personalities

UG -Study Tour.

Mysore Palace

Golden Temple, Koorg.

26. Library as Resource facilitator:

The College Library is a key learning resource integral to the teaching learning process. General Library is located in the prime area of the campus that is accessible to all sorts of students. The college has a partially automated library using the software EMBASE. ILMS is a computer-based system which is used for classification using Dewey Decimal Classification (DDC) scheme, data imputing, subject analysis, selection of class number, assigning book number, preparing call number, data book creation, and spine label preparation. Bar code technology is used for identifying the book and the subscriber. Library has both online and offline book search facility. Library offers access to INFLIBNET, N-LIST programme, which is a vast repository of online journals and e-books. The library provides access to 31 Lakh e-books and 6000 thousand e-journals through INFLIBNET N- LIST consortium. Sree Narayana college, Chathannur is also a member of National Digital library of India, a project under Ministry of Human Resource Development, India. It holds more than 60 types of learning resources and 10 Million items have been authored by 3 Lakh authors.

27. Extra curricular and co-curricular activities:

Extra-Curricular plays an important role in one's overall personality development. Extra-curricular means getting an exposure to things and activities that reside outside of your academic curriculum. Students are encouraged to participate in extra-curricular activities where by students not just gain the academic knowledge but also overall personality development is also enhanced.
