## BHOOMITRA SENA CLUB

Addressing environmental issues is a multidisciplinary task and for its objective accomplishment, a strong action on awareness building is essential. If taken up at the cutting edge levels, it helps in changing the attitude of the society. For attaining this objective, it is appropriate to exploit the enormous manpower available with the students because they form the most important community having influence both in the family and in the society and also devoid of any vested interests. For strengthening the environmental commitment of students at college level in the State, Directorate of Environment & Climate Change (DoECC) has launched the 'Bhoo Mithra Sena' programme. Through this programme, it is intended to establish Bhoo Mithra Sena Clubs (BMCs) in all districts through the colleges of the State. Now it is extended to Higher Secondary Schools in the State as well.
