

Bhoomitra Sena

Addressing environmental issues is a multidisciplinary task and for its objective accomplishment, a strong action on awareness building is essential. If taken up at the cutting edge levels, it helps in changing the attitude of the society. For attaining this objective, it is appropriate to exploit the enormous manpower available with the students because they form the most important community having influence both in the family and in the society and also devoid of any vested interests. For strengthening the environmental commitment of students at college level in the State, Directorate of Environment & Climate Change (DoECC) has launched the 'Bhoomithra Sena' programme. Through this programme, it is intended to establish Bhoomithra Sena Clubs (BMCs) in all districts through the colleges of the State. Now it is extended to Higher Secondary Schools in the State as well.

Bhoomithra Sena

Annual Report 2021-22

After the Covid 19, when the college reopened in the academic year 2021-22, Bhoomithra Sena came out with many programmes. The members thought of preparing a vegetable garden in the college and they came together to make it a reality. As a result of everyone's collective efforts we got a good agricultural harvest. The collected agricultural crops were bought by teachers and students and the rest were sold in the nearby market.

Bhoomithra Sena

Annual Report 2020-21

Due to the closure of the college due to Covid 19, in 2020-21 Bhoomithra Sena couldn't organise regular activities inside the campus. By planting saplings at home members celebrated World Environment Day.

Tree plantation programmes at home as part of World Environment Day.

Bhoomithra Sena

Annual Report 2019-20

As in the previous years Bhoomitra Sena organised diverse programmes in 2019-2020 accademic year also. Bhoomitra Sena identified a place in the college campus with the aim of preparing a vegetable garden in the college. Principal and teachers provided all kinds of support for the students. The cleaning and maintenance work of the garden was undertaken by students themselves. Due to the united work of all a good agricultural harvest was achieved. In 2019, where there was a flood that gripped Kerala, members of the club volunteered and did many activities. Members visited the relief camps operated in Kollam and provided food, water and medicines to sufferers. Members also participated in home cleaning programmes to rehabilitate the victims.

Bhoomithra Sena

Annual Report 2018-19

As part of World Environment Day, Bhoomithra Sena planted saplings in the college in association with Forest Department. Around 50 members of Bhoomithra Sena participated in the paddy harvesting organised at our adopted village. Apart from the students, Panchayath members, the natives also participated. While calamity happened due to flood in Kerala, the members of the club participated in the activities of different relief camps operated at Trivandrum, Kollam and Pathanamthitta. Our college started a unit to collect the essential commodities and finally handed over it to the Kollam district collector in the presence of the principal. Our members also volunteered to do the cleaning work in the affected areas as part of rehabilitating the people.

Bhoomitra Sena

Annual Report 2017-2018

Bhoomitra Sena is an initiative of Directorate of Environment and Climate Change, Government of Kerala. It is aimed at encouraging college students to appreciate the environmental issues. The club of our institutions has organised seminars and debate to propagate waste minimisation, personal hygiene habits and sustainable styles. The club celebrated World Ozone Day with poster making competition. Students also participated in the Paddy harvest festival conducted at nearby village. The members of the club distributed cloth bags in the village with the aim of promoting cloth bags instead of plastic carry bags. Members have also undertaken the initiative in cleaning the campus environment frequently and making it scenic.

Dr. Shinu Kumar S, Social worker, is handling a session on personal hygiene.45 students participated in the programme.

Poster making competition in connection with World Ozone Day. 64 students participated in this programme.

Students participation in Paddy harvesting festival. 60 students participated in the programme.

Cloth bag distribution. 15 students participated in the programme.

Campus beautification. 22 students participated in this programme.
