RESULT ANALYSIS

Result analysis is done for evaluating students' academic performances and to identify the domains for which students got low scores in the examinations. Semester wise and course wise result analysis are done for this and remarks of the result analysis are presented in CLMC. CLMC analyse the same and proper decision are made to improve students' academic performances on the basis of their analysis. As part of that if syllabus revision is found to be requireable, communications are being sent to university for the same. Also the departments arrange remedial coaching for students who secured low grades in examinations. (Result for five years: <https://sncchathannur.ac.in/results/>) . A sample result analysis is given below.
