INTEGRATED LIBRARY MANAGEMENT SYSTEM

KOHA: Library Software

KOHA is a widely recognized open-source Integrated Library Management System (ILMS) designed to streamline library operations. It offers a user-friendly interface for cataloging, circulation, and resource management, making it an ideal solution for libraries in the educational sector. KOHA enables efficient organization and accessibility of resources, supporting both physical and digital collections. Its Web-OPAC feature allows remote access to library catalogs, enhancing resource discovery for students and faculty. With features like barcode integration, ISBN support, and robust reporting tools, KOHA fosters an efficient, transparent, and inclusive library environment in educational institutions.

INFLIBNET

The Information and Library Network (INFLIBNET) is an autonomous inter-university center under the University Grants Commission (UGC) of India. It plays a pivotal role in modernizing academic libraries and fostering seamless access to scholarly resources in educational institutions. INFLIBNET provides services like Shodhganga (a repository of theses and dissertations), e-ShodhSindhu (a consortium for e-resources), and SOUL software for library automation, promoting research and learning. It supports inter-library loan and resource sharing, making knowledge accessible across institutions. By integrating technology with library systems, INFLIBNET enhances the quality of education and research in universities and colleges.

Library Orientation

Library Orientation

An orientation class was conducted for our first-year U.G. and P.G. students to familiarize them with the various library facilities, such as INFLIBNET, newspapers, journals, books, and e-resources like e-books, databases, and e-journals. This program aims to help students

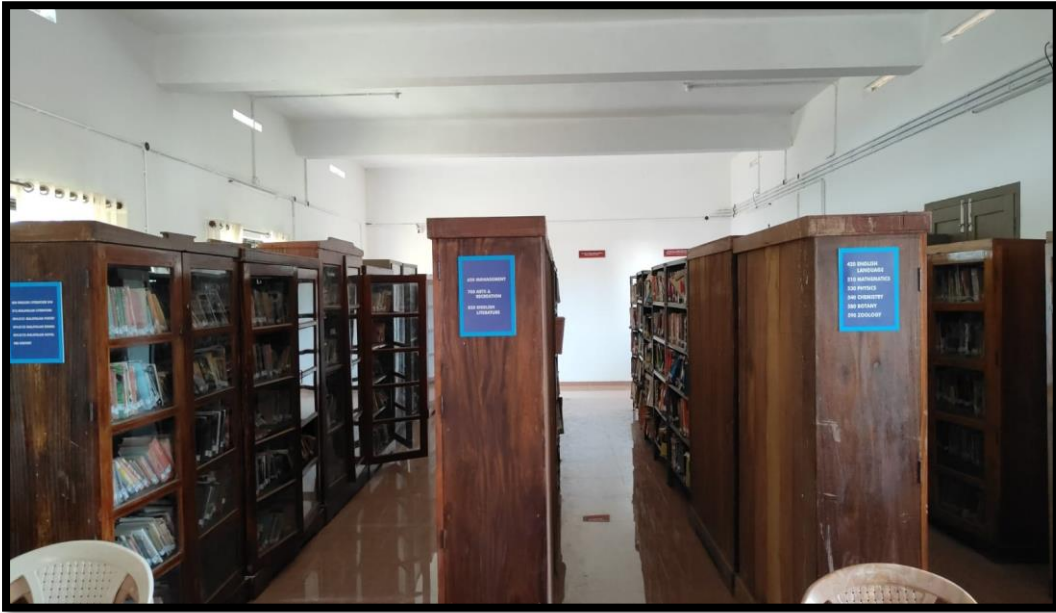

access global information, enhance their literary skills, and acquire additional knowledge in their respective subjects. General library rules were also discussed during the session.
